FAITH-BASED ORGANISATIONS (FBOs),  
NON-GOVERNMENTAL ORGANISATIONS (NGOs)  
AND GOVERNMENT ENTITIES**

18<sup>th</sup> November 2024

**We Connect People**

Greetings,

**RE: SCHEDULE A DEMO**

MtaaNet is an online group collaboration platform inspired by the golden rule 'love thy neighbour as thyself'.

The platform is unique in the following ways:

- Architecture - Clutter-free and easy to navigate.
- Privacy - Members use aliases and hide contacts until requested.
- Safety - Admins approve content shared by verified members within groups.

Membership is structured into 4 categories with 16 benefits as follows:

- Free Member - Add Groups, Notes, Assignments and Calendar.
- Bronze Member - Contact Request, Crowd Funding and Feedback.
- Silver Member - Bulk Email, Bulk SMS and Catalogue.
- Gold Member - Business/Career Profiles, Events, Jobs, Products, Tenders and Spouse Matching.

For instance, members are enabled to discuss notes and assignments interactively, to remember anniversaries, birthdays and other dates, to fundraise efficiently and transparently for activities, projects, startups as well as welfare such as food relief, house rent, school fees, medical aid, and so on, hence our brand.

The Founder is, among other occupations, a software engineer by profession, an active alumni of KCA University and a finalist (Top 50/5000) at KCB Lions' Den, a franchise of Shark Tank USA, where he was offered KES 10 Million (USD 100,000) however the negotiation was not conclusive. The offer was made by an investor who heard his pitch once without prior information which is a vote of investor trust. Interested donors and investors may reach out to him via LinkedIn.

A demo may be done via Google Meet or a physical visit and requires a minimum of 5 people for 1 hour. Kindly login to schedule a demo - [www.mtaanet.com](http://www.mtaanet.com).

Much Appreciated,

**Nabii McKnight**  
Founder, MtaaNet
