We Connect People

Greetings,

RE: DEMO OF MTAANET (www.mtaanet.com)

Definition: MtaaNet is a group collaboration web app platform inspired by the golden rule 'love thy neighbour as thyself'. Mtaa is Swahili for neighbourhood and Net is short for network.

Target Clients: Any leader of a group of members such as in academia, associations, corporates, faith-based organisations, savings and credit co-operatives, real estate agents and government entities.

Member Benefits:

1. To receive announcements via bulk notifications.
2. To purchase group items such as books and t-shirts.
3. To remember anniversaries, birthdays and group calendar.
4. To share articles, blogs, prayer requests and testimonies.
5. To discuss notes and assignments interactively.
6. To engage in business, career and social networking.
7. To advertise events, jobs, products and tenders.
8. To discover personality types for career and marriage compatibility.
9. To fundraise efficiently and transparently for activities, projects, startups and welfare such as food relief, house rent, school fees and medical aid.
10. To access loans by networking with guarantors for collateral.

Member Categories: Free Member, Bronze Member, Silver Member and Gold Member.

Investor Opportunity: The Founder of MtaaNet is Nabii McKnight (legal first and last name). He is an Author by gifting and a Software Engineer by profession. He was a finalist (Top 50/5000) at KCB Lions' Den, a franchise of Shark Tank USA, where he was offered KES 10 Million (USD 100,000) however the negotiation was not conclusive. The offer was made by an investor who heard his pitch once without prior information which is a vote of investor trust. Interested investors may reach out to him.

Kindly contact us for a physical or virtual demo which requires at least 5 people and 1 hour.

Much Appreciated,

Support Team
