**ACCOUNTS**

Accounts feature addresses the Judas leadership problem by enabling Group Members to ensure transactions are properly recorded.

For instance, if you gave 1,000/= cash in an envelope, this feature ensures 100/= is not recorded by mistake or otherwise.

Likewise, if you gave electronically, this feature ensures the amount is recorded under your name and not someone else.

Unlike the Crowd Funding feature where transactions are open to all Group Members, this Accounts feature is private to you as a Group Member and the Group Admin.

**To proceed, tap on Add Transaction button hereunder.**

To amend a transaction (before approval), tap on edit:
